Manager: Koji Taniguchi

Dear Customers,

Notification of LED Change

We would like to inform you that we will be replacing the following parts in our measuring instruments. We appreciate your understanding regarding this change.

1. Target Model

All models except those with LCD panels¹

2. Modification Details

The 7-segment LED used to display measurement values, limit values, etc., will be replaced.

While there may be slight variations in color and shape, this will not affect visibility.

	Before change	After change
Large 7-segment LED used for measurement values and standard sections		
Small 7-segment LED used for the limit section		

3. Timing of Changes

We will implement this change sequentially as soon as the current stock is depleted, starting around February 2026. Please note that while we will ensure that a single order does not contain both old and new versions, the change timing for each product may vary by its serial number.

¹ those with LCD panels: AE-115 series (e.g.AE-115A etc.), AE-1630 series, AE-9303B and AE-HC100A.
